

Curriculum Vitae
Kai Shaaban KAIKAI, MD
Surgeon

Highly skilled Specialist Surgeon and dedicated medical educator with over two decades of experience in trauma and emergency care. As the Head of the Department of Accident and Emergency (A&E) at Ongwediva Medipark Academic Hospital, he leads a multidisciplinary team in delivering life-saving care to critically ill and injured patients. He is deeply committed to advancing surgical practice in Namibia through pioneering work in the national kidney transplant program and the application of advanced laparoscopic techniques. A passionate educator, he is dedicated to mentoring medical students and residents, and has served as an Advanced Trauma Life Support (ATLS) instructor for more than 20 years.

CORE COMPETENCIES & SKILLS

- Trauma & Emergency Surgery: Expert in managing poly-trauma and critical surgical emergencies.
- Minimally Invasive Surgery: Highly skilled in advanced laparoscopic surgical procedures.
- Transplant Surgery: Pioneering member of the kidney transplant program in Namibia.
- Medical Education: Experienced clinical educator and mentor for medical students and residents.
- Trauma Training: Certified ATLS Instructor for over 20 years, dedicated to standardized trauma education.
- Clinical Leadership: Head of A&E Department, overseeing clinical operations and a team of medical professionals.
